The information on this website is for informational purposes only and is not intended to recommend any investment discussed herein. Nothing herein is an offer to sell or the solicitation of an offer to purchase an interest in any investment vehicle managed or sponsored by Phoenix Property Investors or its affiliates (collectively, "Phoenix"). Any offer, sale or solicitation of interests in any investment vehicle will be made only pursuant to the governing documents of such vehicle and will be subject to the terms and conditions contained therein. Any information on this website is incomplete without reference to, and should be viewed solely in conjunction with, any oral briefing provided by Phoenix. Any information on this website is highly confidential and is being provided for your confidential use with the express understanding that, without Phoenix's prior written permission, you will not release or re-publish any information on this website, discuss the information contained herein, make any reproduction of, or use any material contained herein for any purpose other than a preliminary evaluation of this information. The information presented on this website is not provided with a view to providing investment advice with respect to any security, or making any claim as to the past, current or future performance thereof, and Phoenix expressly disclaims the use of any information on this website for such purposes. The contents herein are not to be construed as legal, business or tax advice, and each recipient should consult its own attorney, business advisor and tax advisor as to legal, business and tax advice.

This website may include certain forward-looking projected financial (and non-financial) information that is based on current estimates and forecasts. Actual results could differ materially. "Forward-looking statements" are statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance and financial condition, and often contain words such as "may," "project," "expect," "estimate," "anticipate," "intend," "plan," "believe," "seek," "see," "should," "will," "would," "target," or variations of such words and similar expressions which are not historical in nature. Forward-looking statements by their nature are subject to numerous assumptions, risks, contingencies and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future which could cause our actual results to be materially different than those expressed in our forward-looking statements. Forward-looking statements are not guarantees of future performance. Any forward-looking statements in the email are made as of the date of such statements, and Phoenix undertakes no obligation to update such statements. The photos and illustrations herein may be architectural rendering of the actual subject and may be out of date, and no reliance may be placed for any purpose on the said photos.

Unless otherwise indicated, returns are presented on a gross basis and do not reflect any expenses, management fees or incentive allocations which in the aggregate may be substantial and have the effect of reducing returns. Past performance is not indicative of future results and a risk of loss exists. Any investor's actual returns may vary significantly from the aggregate returns set forth in this document. There can be no assurances that any target returns or projections set forth herein will be met. Such returns are subject to significant economic, market,

and other uncertainties that may adversely affect the performance of an investment. Investors are invited to request additional information about the basis for target returns and projections. Phoenix's Opportunistic and value-add investment experience (the "Prior Experience") is presented for illustrative purposes only. The strategy of any future investment vehicle will differ from the Prior Experience in one or more aspects. Accordingly, the investment performance results presented in this website with respect to the Prior Experience do not represent the performance that any future investment vehicle may be targeting or that investors can expect to achieve with an investment any Phoenix-managed/sponsored vehicles.

In considering the performance information contained herein, investors should bear in mind that past or projected performance of these investments is not necessarily indicative of future results, and there can be no assurance that these projected returns will be achieved or that the Fund will achieve comparable results to past or projected performance. Phoenix's projected returns are derived from Phoenix's business plans for each investment, which contain a number of assumptions, including future projections of market rents, capitalization rates, development plans and absorption rates that Phoenix believes to be reasonable under the circumstances. However, the actual realized return on any investments or the fund will depend on, among other factors, the value of the assets after investment and market conditions before realization, any related estimated transaction costs, and the timing and manner of sale or presale of such assets, all of which may differ from the assumptions and circumstances on which the Phoenix's projections are based. Accordingly, the actual realized return on these unrealized investments may differ materially from the Phoenix's projected returns indicated herein or the fair values used in the prior performance data contained herein are based. Neither any past performance nor estimated performance of unrealized investments should be construed as a guarantee of future performance of any prior funds or future investments. There is no guarantee that any projected returns will be achieved.
